

## Simple Guest Messaging

This portable and wireless transmitter notifies guests with the touch of a button.

### Easy-To-Use Guest Messaging Solution

The T9560MT transmitter is a simple, affordable component of an LRS guest paging system. Used by restaurants to notify guests when their table is ready, the T9560MT quietly alerts guests. With the touch of a button, send instant customized messages or page guests and enhance the guest experience.

#### ADDITIONAL BENEFITS:

- Works with all LRS Pagers
- Easy to use device with simple touch paging
- Page an unlimited amount of guests
- Rechargeable

#### Enhance Customer Experience

Guests can wait comfortably knowing they won't be forgotten. Silent guest paging provides customers peace of mind and a better overall service experience.

#### Increase Staff Productivity

Page guests with a simple touch-button device, giving staff the tools they need to be more efficient and productive.

#### Boost Revenue

Turn tables faster with guest messaging. Seat guests quickly and give guests the service they demand.

#### HOW IT WORKS

- Assign**  
Provide an LRS pager to a guest while they wait.
- Notify**  
Staff pushes the corresponding number of the guest they want to alert, and the T9560MT transmitter sends the guest a page or message.
- Serve**  
Upon receiving the page, the customer returns for quick and immediate response from the staff.
